## GREETINGS FROM FIS

On behalf of the International Ski Federation, it is my pleasure to welcome you to the FIS Nordic World Ski Championships 2019 in Seefeld (AUT).

The FIS Nordic World Ski Championships return to Austria, exactly 20 years after Ramsau am Dachstein hosted the three disciplines of Cross-Country Skiing, Nordic Combined and Ski Jumping in 1999. In February 2019, the world will turn its eyes to Seefeld for two weeks full of world class competitions and great festival events.

Seefeld is a primary winter sports tourism destination in the Tirol region and is sure to provide skiing fans, media and participants with outstanding pictures and atmosphere throughout the World Championships. Also special for these World Championships will be the opportunity to include a city venue with the Ski Jumping events in the heart of Innsbruck on one of the most recognized hills in the world.

Seefeld has worked tirelessly in the last years since being awarded these World Championships to renovate and upgrade their facilities and to make a smooth rundown and best working conditions for athletes and teams, media, sponsors and partners a top priority.

I am sure that the entire FIS Family, all athletes, teams and media, sponsors and spectators will enjoy excellent competitions and great hospitality.

## GREETINGS FROM THE ORGANISER

### SEEFELD: GLAMOROUS WORLD CHAMPIONSHIPS VENUE OF GREAT DIVERSITY!

52<sup>nd</sup> FIS Nordic World Ski Championships in Seefeld. From 19 February to 3 March 2019, the world's best Nordic skiers will compete for much sought-after World Championships medals in the Olympic region. For the fourth time, Seefeld, with its almost 3,500 inhabitants, located north of Innsbruck, is the host of major events; it has already been an Olympic venue twice (1964, 1976).

In view of the relatively small number of inhabitants, sophisticated Seefeld amazes with a great variety of opportunities. It is a tourism and sports region but also offers cultural events – all of this at the highest level, with Mayor Werner Frießer playing a decisive role as a driving force.

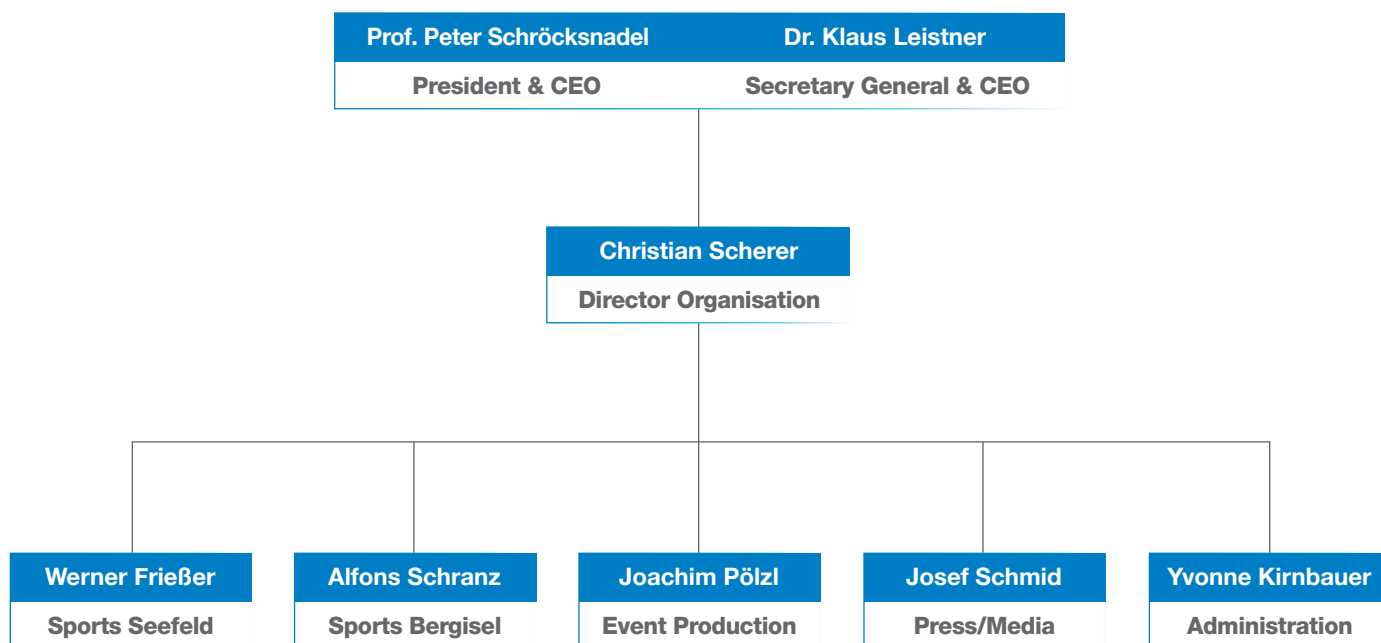

As President of the Austrian Ski Association, I would like to warmly welcome all the athletes of the participating nations to Seefeld and wish them all a successful and accident-free course of the competitions. My greetings also apply to the officials, coaches and service technicians. In this context, I also want to greet all fans who will come to the competitions.

There is one thing I can forecast – all of them will find ideal conditions in Seefeld, because in the course of the World Championships preparations, strenuous financial efforts have been carried out to enable infrastructural measures in the transport sector (station conversion, road construction, etc.) as well as in the sports sector (new trails, new passages with bridges). In a nutshell: Seefeld is well prepared and will fully live up to its reputation as a perfect organizer of major sporting events. Again, a cordial welcome to Seefeld, the State of Tyrol, and Austria.

The Official Incoming Office and the LOC have a good relationship with the hotels and can assure accommodation especially adjusted to the needs of the athletes and teams. The hotels are adapted to the needs of the athletes, especially with regard to the selection of food and meal times at the hotel. Three meals (breakfast, lunch and dinner) per day will be served at the hotel, with sufficient food and one non-alcoholic drink per meal. The Official Incoming Office will manage the booking of accommodation on a first come first served basis.

We are working on providing a Charter-Shuttle for Cross-Country Teams from Cologne to Seefeld. We will keep all nations updated about the service and costs.

There will be a Welcome desk at the Airport in Innsbruck. The desk will assist you with any questions regarding transportation to the team hotels or to the venue. The opening hours of the desk will be customized to the teams' arrival. Transportation can be booked by using the FIS online entry system together with accommodation. Please let us also know how many bags and skis your team will have in their luggage in order to organise the appropriate vehicle.

If you are planning to arrive with your own vehicle and do not need transportation service from the LOC, please make a note on the FIS online entry form.

FINAL transportation needs must be submitted no later than 15<sup>th</sup> January 2019 in the FIS online entry system. Changes for booked transportation service should also be done using the FIS online entry system.

[transportation@seefeld2019.com](mailto:transportation@seefeld2019.com)

## Transportation service during the event

The LOC will provide a shuttle service free of charge between the venue in Seefeld and in Innsbruck and the team hotels.

## Parking

Parking is limited at the venue in Seefeld and in Innsbruck at the Bergisel. The LOC wants the teams to draw attention that only one car per team is allowed to park directly at the service areas (which is not necessarily in front of the team cabin). There will be parking about 500 meters from the service area at the team parking area (see map at page 14).

The parking situation at the Bergisel is similar. Due to limited space only one car per team is allowed to park near the service area. Final allocation of parking spaces will be done by the LOC in cooperation with FIS.

You can collect your parking permits at the Accreditation Office. Please make a note in your entry of how many vehicles per disciplines your NSA wishes to park at the team parking area. After checking the needs against capacity, the LOC will confirm the allocation of parking spaces. In case of any further parking permits questions please tell us your requests and wishes at the first info meetings. However, the LOC highly recommends using the offered shuttle service.

Deadline: 15<sup>th</sup> January 2019

The LOC herewith informs all teams that medal winners must provide a copy of the ID, the bank details as well as a signed prize money form. This procedure will take place in the green room right before the medal ceremonies. Therefore, we kindly ask the winners to bring the needed documents to the ceremony.

### The prize money includes VAT

- An athlete participating at the FIS Nordic World Championships in Seefeld is liable to VAT regarding his/her prize money.
- Consequently, the prize money of a FIS WSC competition in Austria, which is disbursed to national and international athletes, always includes VAT.
- Legal regulation: sec 3a Art 6 UStG (Austrian Value Added Tax Act): a sporting performance is VAT charged at the place where the organiser is located.

### The organiser is liable to pay the international athletes' VAT in Austria

- The organising management companies have to deduct and pay the international athlete's VAT to the tax authorities.
- Legal regulation: sec 19 Art 1 UStG (Austrian Value Added Tax Act): If the supplier of the service (=athlete) has neither domicile (seat) nor residence or a fixed establishment regarding the service supply in Austria, the service recipient (=organiser, LOC) is liable to VAT. This applies if the organiser itself is a taxable entity.
- **As a result, the international athlete does not have to take action (=pay VAT by her/himself) regarding her/his VAT liability in Austria.**

### 3. Income tax - Withholding tax for international athletes in Austria

- The LOC has to withhold 20 % of the international athlete's net prize money and pay it to the tax authorities.
- Legal regulation: sec 99 Art 1 lit 1 in connection with sec 100 EstG (Austrian Income Tax Act): the international athlete is subject to limited income tax liability, provided she/he receives remuneration for her/his service as a self-employed person.
- The withholding tax is 20 %.
- The LOC is liable for withholding and paying the withholding tax. They have to deduct the tax at that point in time when the prize money is disbursed to the athlete.
- **As a result, the international athlete does not have to take action (=pay Income Tax by her himself) regarding her/his income tax liability in Austria.**
